In the thesis, I made the landscape plan at the eastern part of the village in order to determine the possible locations for the aspects of the landscape protection. In the thesis, I used the direction of the landscape and the role of the landscape character and the idea of the landscape, and the role of the investigation, in the meaning of the vision and the idea of the village in the form of a map. I also defined the area, which is the "natural environment", the landscape and the landscape character protection are also defined as an environment. Also, the direction of the landscape and the landscape character protection are also defined as an environment.

The selection of the entire landscape character suggestions are chosen for the development and protection of the areas of the landscape and the landscape character protection. The protection of the selection of the landscape character suggestions is chosen for the development and protection of the areas of the landscape and the landscape character protection. The protection of the selection of the landscape character suggestions is chosen for the development and protection of the areas of the landscape and the landscape character protection.
