RECREATIONAL AND TOURISM DEVELOPMENT CONCEPT PLAN FOR THE SERHÁZZUGI OXBOW

The main purpose of the thesis is to frame a tourism and recreational development concept plan for the Serházzugi Holt-Tisza, consisting of a detailed plan and an integrated development concept. The project focuses on specific areas, such as the wetland and the floodplain, and integrates the local background and the local culture. The project is an example of how the existing areas can be developed in a way that is beneficial for the local community and the environment. The purpose of the project is to promote the local culture and the natural beauty of the area. The project is designed to attract tourists and to create a sustainable development model.
